

SKIN BOOSTERS & BIOSTIMULATORS

Prohilo®

A patented pure hyaluronic acid bioremodeller that deeply hydrates and restores firmness from within. Improves skin texture, elasticity, and radiance often called the next-generation skin booster or "the facial that lasts".

Treatment: 2 sessions, 4 weeks apart.

Results: Hydration and glow last up to 6 months.

R4100 per session

Lenisna®

A powerful PLLA + PDLLA collagen biostimulator that tightens, firms, and enhances facial contours with an *instant volumising effect* and *progressive collagen renewal*.

Treatment: Usually 2 sessions, 4-6 weeks apart.

Results: Natural lift and volume lasting up to 12-18 months.

R5200 per session

Juvelook®

A collagen-stimulating treatment formulated with polylactic acid (PLA) and hyaluronic acid, designed specifically for the under-eye area. Smooths fine lines, brightens dark circles, and strengthens thin skin over time.

Treatment: 2-3 sessions, 3-4 weeks apart.

Results: Gradual improvement lasting 6-12 months.

R1600 per session
